

## Technical Data Sheet

### Model: K-3350 Industrial Glue Gun

- With external adjustor temperature control
- With stroke adjustor screw
- Interchangeable nozzle
- With illuminated ON/OFF switch indicator
- With a supporting metal stand
- Lightweight for industrial strength

### TECHNICAL INFORMATION

#### Electrical:

Voltage:	110~120 AC (60 Hz)
Wattage:	300 W
Heating type:	Thermostat
Operating temperature:	120~230°C

#### Adhesive output:

1-minute constant output: 1.0~1.5kgs/hr (based on general purpose glue)

Trigger feeding type: Long trigger (4-fingers)

Recommended adhesive diameter: 11.0mm to 11.5mm

Safety approvals:
